A team of industry experts is created based strictly on the skill set required for the project.

Milestone breakdown
Each project is broken down into small, achievable milestones to provide regular updates.

After-completion support
Consultants and experts remain available to train teams and solve queries even after project completion.

Testimonials

FYNDORA

> Fyndora offers expertise in Shopify development, a commitment to deadlines, and, most importantly, budget-friendly development solutions. They were paramount in the development of my store. They helped me identify the catalogue I wanted to create based on my existing products, and created a store that ensured the customer experience was at the forefront.

Development services testimonial

> Fyndora's recruitment services were excellent. They created a shortlist of eligible candidates within a short period. Furthermore, they interviewed all candidates on our behalf and upon our request, completed the training of the final candidates. The entire project was completed within the deadline as they promised. I would recommend hiring Fyndora if you are looking to quickly fill a position or if you're looking to build a new team!
